Experience

Camilo Riano Orthodontics: Clinical Team Lead in San Francisco, CA. (03/2018-19).

- Led Clinical workflow on a day to day basis. Ran efficiency studies and wrote reports to send to specialists in order to improve the quality of practice.
- By properly strategizing and increasing efficiency, Number of patients that were seen per day doubled and overall clinic production increased.
- Increased number of patients that could be debonded by having an organized setup and by having all records taken beforehand.
- Maintained practice and Osha standards by taking records of patient treatment before, during and after treatment was completed.

Target Corporation: Logistics Team Lead in Fremont ,CA. (01/2016-01/18).

- Led a team of 15 employees to control, organize and scan product into the logistics room to contain an
  accurate inventory.
- Pulled reports to maintain an efficient workflow and brought Store location to #1 Logistics Rank in the region by reorganizing stock room by department.
- Cut pull times in half by strategizing pull locations and understanding which product was prioritized to be pushed out first.
- Collaborated with team members to show proper backstocking, pulling, and zoning techniques that would increase production and efficiency by having things organized and ready to go.
